# MINERAL SPRINGS AT THE SARATOGA RESORT & SPA (SRS) WE MAKE THE DIFFERENCE!

**The Town of Saratoga has public mineral pools but the Saratoga Resort & Spa has their own amazing special pools. Ours pools better meet your needs and here is why...**

We have 6 nearly odorless mineral pools, which includes 5 smaller pools with teepee coverings for privacy. The great thing about these little pools is that each one is set at a different temperature with a gauge right outside the pool. This way, you choose the temperature and are in charge of soaking in the one that is most comfortable for you.

Then, we have a large 70 foot sized pool that ranges between 80-90 degrees throughout the year. Our pools are meticulously kept as you would expect a resort to keep their amenities. The environment for soaking in these pools at the Saratoga Resort and Spa is very plush. After soaking in our pools, you feel

rejuvenated. They are clean and have no public traffic. Our specific pools have historic value as they were constructed as the State Bath House for healing waters after a fire burnt the original Saratoga Springs Hotel in 1902.

The mineral springs in Saratoga have multiple uses and are not just for fun and recreation even though they are a blast. It has also been said and is believed that the mineral springs in Saratoga provide a multitude of physical and mental health benefits.

The whole idea of the Saratoga Resort & Spa is that you are pampered at our luxurious resort and that you can have exciting recreational adventures. We have everything, mineral hot springs that are said to heal anything that ails you and are close to hunting fishing, duck and pheasant hunting, and much more.

For locals, our pools offer more privacy than the public pool. When you need to relax and soak for medicinal purposes, our pools provide you that one step better than a public pool.

The pools here at the Saratoga Resort & Spa are for members and overnight resort guests. As a member or guest not only do you get access to the pools but you can access the fitness center, get discounts on our fine dining and microbrewery and more.

To find out more on how you can become a member of the Saratoga Resort & Spa, please download our 2013 membership booklet at <http://www.saratogaresortandspa.com>.

## EDITORIAL

The Saratoga Resort and Spa (SRS) has so much to offer from excursions, sports courts, rentals, golf, snowshoeing,, events, parties, fine dining,, a microbrewery to excellent accommodations. What makes the accommodations so excellent? Taken together, I believe it is the small little details and the care that goes into the little "special services" at the resort.

These "special services" are not often publicized or marketed but they exist making the SRS that extra special place to stay. I won't keep you in suspense much longer and I will tell you what they are. When you come stay at the resort, you will be warmly greeted and offered flavored espresso coffee and warm cookies. Also, we offer concierge services, shuttling and catering. These little services are make the difference here at the Saratoga Resort and Spa.
