Originally occupied in 1870 by settlers, the location first transitioned from a log store, to the Saratoga Springs Hotel to the State Bath House. Operations changed again in 1949 when the Saratoga Inn was built. Over the next several decades, the Inn was managed by several owners until it was ultimately purchased by world-renowned orthopedic surgeon, Dr. Michael Janssen and family, who frequently visited the area as a favorite getaway.

Today it is know known as Wyoming's premier travel destination, Saratoga Hot Springs Resort.

For centuries the healing waters of Saratoga's natural mineral hot springs have renewed even the most weary of travelers. Come soak away your cares in one of our intimate teepee-covered hot pools or our 70-foot-long mineral hot springs pool. The incredible high mineral content and low sulphur odor ranks our springs among some of the most famous springs.

Our pool temperatures are regulated by flow and nature alone. They range from approximately 88 to 115 degrees.

Healing Waters Spa

Indulge in pampering spa treatments designed by professional spa therapists to sooth and relax the mind, body and spirit. Soak in the naturally therapeutic mineral waters of the hot pools as a prelude to massage therapy, body and energy treatments.

The Snowy Mountain Brewery gets its water from, you guessed it, the Snowy Range and the Sierra Madre Range of southern Wyoming's Rocky Mountains, hundreds of miles of un-spoiled natural wilderness.

Our brewmaster then takes nature's gift of crystal clear water and blends it with the finest Wyoming grown barley to produce expertly crafted batches of beer.

The Snowy Mountain Brewery is Wyoming's third oldest brewery. We are proud of our legacy and excited to share it with you.
