ENERGY

CHAKRA BALANCE

Chakra balancing is based on the ancient Indian belief in a series of seven chakras, or energy centers. Each of the seven main chakras contains bundles of nerves and major organs as well as our psychological, emotional, and spiritual states of being. Since a chakra is moving energy, if there is a blockage of energy cannot flow which can manifest as illness, aches and pains, unknown sadness and more. During a Chakra Balancing Session, the practitioner assesses the flow of energy and removes blockages, as well as evens out the flow from all the Chakras. If your chakras are balanced, in most cases you feel balanced and lighter. (This service is not a massage) *\$85 30-45 Minutes*

All Spa Treatments Include day use of the fitness center and the mineral hot springs pool.

As a spa guest, you are encouraged to soak in the teepee-covered hot pools for 15-20 minutes as a prelude to one of the soothing spa treatments.

Please arrive to the spa ten minutes prior to your scheduled appointment.
